## Skills

---

- Python | C++ | Javascript | HTML5/CSS | SQL | PostgreSQL | Linux | Git | Figma | Shopify
- Django | Scrapy | Selenium | BeautifulSoup | Pandas | Plotly | SFML | OOP | React | Apache Airflow
- Frontend | Backend | FullStack

## Projects

---

### Car Rental Service

<https://github.com/imcvlucas/lucas-car-rentals>

- Built the backend with Django to handle custom account and product creation, leveraged sessions to store and retrieve data when needed, and sent emails to customers once an order had been placed.
- Utilized Stripe API to handle payment processes.
- Integrated PostgreSQL to store user accounts and products.
- **Technologies:** HTML5, CSS, JavaScript, Python, Django, PostgreSQL, REST API, DigitalOcean

### Weather Forecast API

<https://github.com/imcvlucas/weather-forecast>

- Integrated a public weather REST API provided by OpenWeatherAPI to fetch the weather data for the current week. • Displayed weather data using HTML5/CSS and JavaScript.
- **Technologies:** HTML5, CSS, JavaScript, Python, Django, REST API, Heroku

### GPU Web Scraper

<https://github.com/imcvlucas/gpu-scraper-amazon>

- Built a web crawler using Scrapy to extract structured data from Amazon.
- Utilized Pandas to filter, manipulate, and analyze the data. Once parsed, the data was plotted using Plotly to visualize the data extracted.
- **Technologies:** Python, Scrapy, Pandas, Plotly, Streamlit

### Skill Query

<https://github.com/imcarlosvictor/skill-query>

- Created a scraper to crawl and extract keywords unique to the job role specified by the user
- Scrapers are scheduled to run at the end of every month through the use of Apache Airflow
- **Technologies:** Python, Scrapy, Apache Airflow, Streamlit

## Education

---

**Certificate York University** *Toronto, ON, Canada 2020* • UX Design

**Advance Diploma Humber College** *Toronto, ON, Canada 2014 - 2017* • Civil Engineering

## Work Experience

---

**Sales Advisor H&M** *Mississauga, ON, Canada 2018-2020*

- Arranged merchandise according to company standards.
- Located products on behalf of customers, and provided information with regards to merchandise and related services.
- Handled customer transactions and returns of merchandise.
